

The Restaurant School at Walnut Hill College

Dear Students and Colleagues:

Sexual violence on college campuses is an issue that I consider extremely important. I know that it is an issue nationwide; however, we needed to increase our efforts and be more proactive in addressing it.

We have made many changes in our approach to awareness for the College community and will certainly forward any educational materials, as well as alert you to lectures or institutional activities related to sexual violence prevention and awareness.

Working together I believe we can help in keeping our campus safe and secure. As always, I hope you will share any ideas you may have.

Sincerely,

Daniel Liberatoscioli
President
