

## Residential Learning Tips

### What to bring and NOT to bring to campus

- ❖ Your room will feature a standard twin bed, one clothing unit such as a dresser, armoire, or storage closet, and a desk with chair and lamp.
- ❖ You will also receive an in-building mailbox, a snack center cabinet, and a bathroom locker.
- ❖ Your ID card will be the electronic “key” that will open the front door of YOUR residence hall along with the classroom buildings (during their normal operating hours).
- ❖ Codes to enter your room as well as ones to open any locked cabinet will be given to you on *Welcome Home* day.
- ❖ All rooms are equipped with a shared television, cable television service, and WiFi.

*For clothing, we have a really good tip: Bring only what you will need until the next time you plan to return home. For most students, this will mean returning home by Thanksgiving or perhaps earlier. Therefore, you will need only late summer and early fall clothing. When you return home, you will have a better idea of how much you actually need in your dorm room ... and perhaps how much you should actually return to your house, because you may have over-packed!*
